

MINNESOTA INDEX TO CITIES

Populations are from the 2010 U.S. Census data. County Seats are in Capital Letters.

To locate a city on the map use the number and letter after the city name. Corresponding numbers and letters appear on the map border and lines drawn from each will intersect at the location.

The municipalities and counties printed in blue on the alphabetical listing have adopted a Complete Streets (or related) plan, policy or resolution. Cities with the abbreviation (MA) are found on the Metro Inset Map.

Place names without population are unincorporated communities.
