MnDOT's Statewide Pedestrian System Plan identifies priority areas for investments and lays out specific strategies to improve walking availability and accessibility now and for the next 20 years to help communities plan for the future. Started in 2019 and completed in May 2021, the plan provides policy guidance and implements performance measures to help MnDOT measure progress advancing walking throughout Minnesota.

Presented by Jake Rueter

Pedestrian and Bicycle Planner

Jake is a Pedestrian and Bicycle Planner in MnDOT's Office of Transit and Active Transportation. His work at MnDOT focuses on statewide pedestrian and bicycle planning, primarily in Greater Minnesota. Jake earned a Masters of Urban Planning and Policy from the University of Illinois at Chicago with a focus on land use and transportation planning. He and his wife live in the Hamline-Midway neighborhood of Saint Paul where they care for their miniature bernedoodle, vegetable gardens and a small flock of urban chickens.
